

Arizona Children's Health Survey

The Arizona Department of Health Services Office for Children with Special Health Care Needs has partnered with counties throughout the state to launch the Arizona Children's Health Survey.

The Arizona Children's Health Survey will help counties more clearly understand the experiences of families in meeting their children's health needs.

Children are our greatest resource and we care very much about their having access to opportunities to help them reach their fullest potential.

The Survey is available in online, in-person, and mobile formats and takes about 6-10 minutes to finish.

All information gathered in the Survey is confidential and will not be shared.

Results of the Survey will be available in early 2017 and may be requested from the Office for Children with Special Health Care Needs, OCSHCN@azdhs.gov
